

The Rotary Club of Chichester Priory

Priory Post March Supplement

10k Thank You

I would just like to thank all of you who supported me so magnificently at the 10k race earlier this month. My committee were extremely supportive in the planning stages but it was the club members as a whole who not only forced themselves out of bed on a bleak and cold Sunday morning but the relatives and the friends and neighbours who they brought with them and who gave us the support on the ground which we so sorely needed. There was help as well from Rotaract, the Uptown club, the guides and army cadets and others which was all much appreciated.

The event went like a dream - well almost - there were hiccups but the sort of hiccups which we hope didn't show. The record number of runners got to the start in good order and the race began on time, the chip timing went like a dream, there were no nasty incidents on the course, the police were superb and the woman who we usually have to wait for to come in last, this year came

higher up the listing!

We do not know as yet how much the record number of entries brought us in profit but I am pretty sure that this will be a record year. **Dare I guess at £18000.00** or thereabouts? Let's hope the guess is a good one - but we do still have some unknown figures to post to the accounts. So there we are with records broken but two that thankfully were not and saved us £500 . They were of course the course records which were still unbeaten this time!

My thanks to all,

Tony Kerly
