Dear Robin

I write on behalf of the Somerset Local Authorities' Civil Contingencies Partnership to record our sincere thanks for all the help given by Rotary in the Somerset floods. I know that your members have worked long and hard, often in treacherous conditions, and I fully appreciate their willingness to contribute and to help the people of Somerset.

I am aware that your organisation assisted with many tasks, including door to door surveys and warning, assisting with urgent sandbagging and clearance and helping at our centres to assist those who have been flooded. I am sure that there are many occasions when your members worked into the night to assist. I am also aware that you added your expertise and commitment to the distribution centre. Please pass on my thanks to all your members for the help they have given through this challenging time.

We are pleased to have Rotary within our Somerset Emergency Voluntary Agencies Group and you have proved, yet again, the importance of your capabilities to the response.

Yours sincerely

Patrick Flaherty
Acting Chief Executive
