***Contents (the text below goes in the ‘Editor’ area – the part that looks like a word processor, with icons and buttons above it)***

This is Heading1 – a paragraph heading.

This is the body of the first paragraph. I’m going to waffle on a bit, just so several lines of text appear, which we can later do something with. I might even copy this text and reuse it so I don’t fall asleep.

This is Heading2 – another paragraph heading.

This is the body of the second paragraph. I’m going to waffle on a bit, just so several lines of text appear, which we can later do something with. I might even copy this text and reuse it so I don’t fall asleep. This is the body of the second paragraph. I’m going to waffle on a bit, just so several lines of text appear, which we can later do something with. I might even copy this text and reuse it so I don’t fall asleep.

This is Heading3 – a paragraph heading.

This is the body of the third paragraph. In this paragraph, we’re going to make some text bold, some text italic and some text underlined.
