

New District Governor is Caithness-born, Former City Businessman

Our new Rotary Southern Wales District Governor for 2019/20 is Peter Hamilton who lives with his welsh-born wife Gill in Pembrey, West Wales.

Peter attended Wick High School in the far North of Scotland and had a distinguished career in the RAF before beginning a second career in The City of London.

He had senior management roles in an international advertising agency and a major insurance company. He went on to create a new business in the head hunting and executive search arena, which soon became very successful. On his retirement he sold the business and moved to Wales.

After arriving in Wales Peter (pictured here with PDG Mike Parry) was again gainfully employed by the National Botanic Garden of Wales and Burns Pet Nutrition.

Peter's Rotary involvement started in 1983 by joining the Rotary Club of Hampstead in North London followed by the Rotary Club of London; during this time Peter undertook roles at both Club and District level.

On moving to South West Wales Peter joined the Rotary Club of Cefn Sidan, now Pembrey and Burry Port, becoming Secretary and President. Leadership roles within the District of Southern Wales followed leading to his election as on District Governor for Rotary in Southern Wales for 2019/20

"This is the culmination of over 35 years Rotary membership" says Peter. "I am delighted and honoured to take up this exciting and challenging role during a period of considerable change for the Rotary movement". He continued " my passion is engagement with our communities whether in the UK or internationally – Rotary has done so much for mankind over the years and yet has much to offer. Peter's themes for his year will be loneliness and isolation and also clean seas and rivers both of which will be promoted at the District Conference in Swansea in October 2019.
